

The Philippines:

The Center of the World's Marine Biodiversity

March 22, 2012 (Thu) at 6:00-8:00 PM

Speaker: Dr. Kent E. Carpenter, Professor of Biological Sciences (ODU)

Conference Rooms: 1310 -1311 in the Learning Commons, Perry Library, Old Dominion University.

Dr. Carpenter has been described as a “cutting-edge marine biologist” whose research has shed light on the remarkably high marine diversity of the Indo-Malay-Philippine Archipelago (IMPA) and has contributed to the cause of world conservation.

Sponsors: Filipino American Center and Filipino American Student Association
